## OBJECTIVE

- Result-driven Computer Science and Engineering undergraduate with hands-on experience in full-stack web and mobile application development. Skilled in creating scalable web and mobile applications with robust backend systems and optimized databases. Actively Seeking opportunities to contribute technical expertise and problem-solving skills to software development roles.

## EDUCATION

**Silicon University, Bhubaneswar**

Dec 2021 - Jun 2025

- Bachelor's Degree in Technology (Computer Science and Engineering).
- CGPA- 8.12

## PROJECTS

**POSTX- A Social Media APP || *MongoDB, Express.js, React.js, Node.js***

[Github](#)

- Crafted a social media application to foster engagement, enabling profile creation, user registration, authentication, posting, and follow/unfollow functionality.
- Leveraged **MongoDB** for its flexible schema; utilized **Express.js** and **Node.js** for a robust, scalable backend ensuring efficient data handling and server-side logic. **React.js** for user-friendly frontend.
- Designed and secured APIs for backend, resulting in a 30% reduction in response time.

**CRUISEO- A Car Rental Website || *MongoDB, Express.js, React.js, Node.js, Tailwind CSS***

[Github](#)

- Engineered a car rental website enabling efficient vehicle booking for customers and robust management functionalities for administrators.
- Incorporated tailored recommendations using user preferences and review data to enhance personalization.
- Formed a responsive frontend with **Tailwind CSS** for fast rendering and smooth animations.
- Optimized backend processes for seamless interactions and faster load times, achieving a 20% reduction in server response time.

**ShopEase- E-Commerce App || *MongoDB, Express.js, React Native, Node.js***

[Github](#)

- Developed a **mobile** e-commerce application using **React Native** for cross-platform compatibility.
- Created a robust backend with **Express.js** and used **MongoDB** for database management and efficient state management using **Redux-Toolkit**.
- Integrated key features including user authentication, product catalog, shopping cart.
- Augmented the performance and optimized, resulting in achieving a speed index of 0.9 seconds.

## SKILLS

- **Programming Languages:** C++, Python
- **Web Development:** HTML, CSS, JavaScript
- **Frameworks/Libraries:** React.js, Node.js, Express.js, React Native
- **Database:** MongoDB, SQL
- **Developer Tools:** Git, VS Code, Thunder Client, Postman
- **Soft Skills:** Problem-solving, Adaptability, Communication

## CERTIFICATIONS

- **Full Stack Web Development:** iHUB DivyaSampark, IIT Roorkee
- **Joy of Computing using Python:** NPTEL
- **Ethical Hacking:** NPTEL
- **Syllogistek System Pvt. Ltd.:** Python for Beginner and Mobile App Development using React Native.
